

# More profit per pig, worldwide.

A series of cost benefit studies conducted worldwide confirmed that Denagard®/Tiamutin® consistently deliver superior profit returns for the major economic diseases of swine, when compared to other treatments.

For ileitis, PRDC, mixed enteric disease and mixed respiratory and enteric disease, Denagard/Tiamutin always gave a better return on investment even on farms with PRRS and PMWS.

**To find out more about how Denagard/ Tiamutin could make you more profit per pig visit [www.denagard.com](http://www.denagard.com), [www.tiamutin.com](http://www.tiamutin.com) or contact Novartis Animal Health.**

*Treats and controls: Mixed infections  
Mycoplasma • APP • PRDC • Ileitis • Colitis  
Swine dysentery • PMWS associated infections*
