

Goats and sheep

Orego-Stim[®] Smallholder should be used continuously in the drinking water of goats and sheep. It is suitable for use during pregnancy through to weaning.

Inclusion rate

First 28 days: 50ml per 25L of water

Maintenance: 15ml per 25L of water

- Reduces incidences of scour in young kids and lambs during weaning
- Reduces stress during weaning
- Increases milk yield
- Maximises intestinal health
- Decreases incidences of diarrhoea caused by common intestinal diseases
- Maintains a healthy immune system
- Natural, safe and easy to use

Orego-Stim[®] Smallholder is completely residue free so no withdrawal period is needed. It will not taint the milk of animals used for dairy purposes, or the meat.

OREGO-STIM[®]

A Meriden Animal Health Product

100% Natural Supplement for inclusion in the drinking water

Orego-Stim[®] Smallholder improves the overall health and performance of **animals of all types and ages** reared on smallholdings and small-scale farming operations.

Orego-Stim[®] Smallholder works by increasing the turnover of cells in the gastrointestinal tract which improves absorption of nutrients from the intestines. This in turn facilitates improved health, vitality, vigour and production.

1 Litre

HEALTH - VITALITY - VIGOUR - NATURALLY

Pigs

Orego-Stim[®] Smallholder is suitable for all types of pigs, whether they are reared for meat or otherwise. It is suitable for use during pregnancy through to weaning. For continuous daily use.

Inclusion rate

Creep feeding up to 15 days post weaning: 50ml per 25L of water
15 days post weaning to 25kg of bodyweight: 25ml per 25L of water
25kg bodyweight onward: 15ml per 25L of water
Gestating and lactating sows: 15ml per 25L of water

- Healthier pigs and healthier piglets
- Increases sows' milk production
- Improves fertility
- Reduces stress during weaning
- Improves growth
- Maximises intestinal health
- Decreases incidences of diarrhoea caused by common intestinal diseases
- Maintains a healthy immune system
- Natural, safe and easy to use

Orego-Stim[®] Smallholder is completely residue free so no withdrawal period is needed. It will not taint the meat.

Poultry and domesticated fowl

Orego-Stim[®] Smallholder is suitable for use from day old and throughout the life of the bird and is completely compatible with all other products including vitamins, minerals and grits. For continuous daily use.

Inclusion rate

Maintenance rate: 15ml per 25L of water
Extra support: 30ml per 25L of water

- Drier droppings and cleaner perches
- Improves feather quality
- Boosts egg production
- Better quality eggs
- Lengthens hens' laying life
- Improves growth and uniformity in chicks and pullets
- Natural, safe and easy to use

Orego-Stim[®] Smallholder helps to support birds' digestive systems throughout treatment for worms and other intestinal parasites. It has beneficial anti-bacterial properties and has been proven to reduce incidences of diseases challenging the health of the gut.

The inclusion rate can be doubled at times when extra support is needed i.e. if birds are transported, after a fox scare, throughout the moult or during a disease challenge, to help maintain laying rates and reduce stress.

Orego-Stim[®] Smallholder is completely residue free so no withdrawal period is needed. It will not taint eggs or meat.
