

MENTOFIN®

ADDITIVE

Natural Protection

MENTOFIN is a 100 % natural additive containing essential oils of plant origin, which can be sprayed or included in the water or feed.

INGREDIENTS

MENTOFIN contains essential oils of eucalyptus and menthol in combination with saponin.

APPLICATION

MENTOFIN can be applied via the drinking water for the regular prevention of respiratory problems in all kinds of livestock (general prevention).

MENTOFIN is the ideal tool for prevention of respiratory problems related to post vaccination reactions (special prevention).

MENTOFIN can also be applied via the spray method using conventional spraying equipment with a fine nozzle or preferably an aerosol generator (aerial spray).

MENTOFIN is safe for application in all forms of livestock.

USE	DILUTION & DOSING	ADMINISTRATION
General prevention drinking water	Use 200 ml of mentofin in 1.000 l of drinking water for 20.000 birds.
